

Did you know you can use your retirement funds for buying a business without paying taxes and penalties?

Often times your net worth is tied up in retirement funds and your immediate need is to replace an income and support yourself and family.

What good does it do to have funds for retirement when you need to buy a business to pay your mortgage?

Two sources most people look at to finance a new business: tapping into the equity in their homes or withdrawing funds from their 401(k) plan. But the spouse won't let them encumber the home and they think the IRS will penalize them heavily if they take early distribution. (\$45,000 in taxes on a \$100,000 401(k) account.) We can help provide the pension liquidity new business buyers need without triggering a taxable event. (You receive \$93,150 in cash from your \$100,000 retirement savings.)

It only seems fitting that you should be rewarded for good saving habits. After all, you planned well, you did the right thing - you saved for your future. But tax laws in America prevent savers from dipping into their 401K, IRA, profit-sharing, or annuity plans. In fact, in many states, you'll lose more than 50% of your funds in taxes and penalties, just for accessing the rainy-day savings you've worked so hard to accumulate. The program provides a perfectly legal, perfectly simple approach to help you make rain with your savings. The program allows you to release the money in your retirement funds and use it for a fresh start in business - without penalty, and without taxes. This program was started specifically to help people like you get that fresh start. Many people have been affected by downsizing or outplacement, and find themselves with money tied up in a retirement account while looking for ways to become their own bosses. You can have significant savings from elimination and/or reduction in taxes on your money and use it to pursue the American dream. You can use the money to purchase a franchise, buy an existing business, or start your own entrepreneurial venture. And you won't lose a penny by doing so. The program may be just what you need to begin your bright new future. A future you control. If this sounds too good to be true, then we invite you to talk to hundreds of new business owners who have benefited from the plan. Hundreds of individuals just like you have benefited from the services to start or buy their own companies using their retirement funds, without distributions, penalties, taxes, or the use of loans.

If you are interested in this service contact Arizona Sunbelt. We will have a specialist send you information to explain the program.
